

WELLNESS, HEALTH, CAREER AND COUNSELING BUILDING REFERENDUM

Do you approve the creation of a \$57.00 per student per quarter fee to build a new, state-of-the-art Student Wellness, Health, Career, and Counseling Building? The fee will NOT be charged until the new building is opened (estimated for 2020).

In partnership with the campus, this fee will assist in the construction, maintenance and building operational costs of a new, state-of-the-art Student Wellness, Health, Career, and Counseling Building. This new facility will be constructed to enhance the space, service, design and access needs of the expanding student population. The facility will house services to students supporting their wellness, health, and career goals. As currently envisioned, the services to be housed in the Student Wellness, Health, Career, and Counseling Building include, but are not limited to, expanded career services support, disability services, mental health counseling services, health promotion programs, social worker services, sexual violence support & prevention and other health services.

- This fee will NOT be charged until the new building is open and services are provided in the new building (estimated for 2020).
- The fee will be charged to undergraduate and graduate students.
- The fee will be assessed during the fall, winter, spring, and summer quarters.
- Starting the third year of the fee (estimated fall 2022), the portion of the fee that is associated with the operations and maintenance of plant will increase annually based on the California Consumer Price Index (CPI). The CPI will be taken from the California Department of Finance's calendar year annual average of all urban consumers CPI-U.
- After 30 years (estimated 2050), the quarterly fee will be reduced to cover operating expenses, major repairs, and maintenance. This reduced fee will be based on the average of the last three years of operating costs (estimated to be a \$25/quarter/student fee). This reduced fee will increase annually based on the California Consumer Price Index (CPI).
- In accordance with campus practice, 29% of the fee will be returned to financial aid to help offset the cost of this fee for students who are eligible for financial aid.
- In order to pass, this referendum will require a 25% eligible total undergraduate and graduate combined voter turnout rate during the Spring Elections, of which 60% of those votes need to be Yes votes.

Yes, I support a \$57.00 per quarter fee for the Wellness, Health, Career, and Counseling Building Fund.

No, I do not support a \$57.00 per quarter fee for the Wellness, Health, Career, and Counseling Building Fund.
